**Membership Categories**

- Small Scale Farmers are those individuals who produce less than 5 tons of product per annum (or 1000 ornamental fish).
- Student members include all students with a valid registration to a tertiary educational institution (student no. to be provided).
- Corporate membership is for all *bona fide* companies and will allow for these companies to log 5 employees of such companies as links to which AASA will circulate information, materials and for various discounts. For very small and emergent companies, individual membership will be more beneficial, but AASA requests that larger companies do not misuse this opportunity as AASA depends greatly on the corporate membership income. Corporates that want to link more than 5 employees or large commercial entities that want to provide AASA with additional support will be dealt with on a one to one basis.
- Institutional membership is for institutions such as Universities, Government Departments, nongovernmental organisations etc. and also allows for the logging of 5 people within the institution to AASA for information, materials and discounts.

**Membership Benefits**

- Latest Newsletters available to members via the website.
- Discount on Advertising fees on the Website.
- Discount on Advertising fees on the Newsletter.
- Discount to AASA conferences
- Members are added to a database of service providers for referrals.
- Effective representation of interests on provincial, national and international forums.
- The organisation of a biannual Conference with international representation
- A bi-monthly newsletter service with quality content and opportunities to contribute
- To facilitate the flow of information between its members and associated interest groups
